

USB Flash Drive Screen Print and Engraving

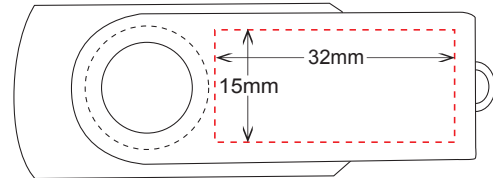

Digital Artwork:

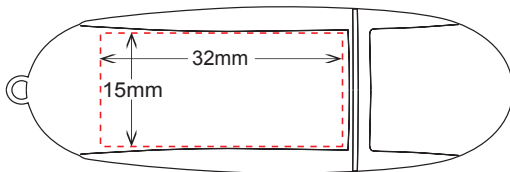

- State clearly whether you require Screen printing or engraving (for engraving no colour will be printed)
- Design will be printed/engraved on BOTH sides of the FlashDrive. If 1 image is presented, it will be the same on both sides. Alternatively, you may present 2 different images, 1 for each side.
- There must be NO bleed.
- Remove all key lines which are not to print.
- Minimum type size 5pt.
- Fonts to be converted to outlines.
- Colours to be solid. Please avoid all tints, tones and fine lines.
- Pantone colours must be identified with appropriate PMS number.
- Artwork to be presented in vector format. Formats accepted are: .eps, .ai, .pdf.
- A full colour proof is advised whenever colour is critical
